FLUSH YOUR TROUBLES AWAY

DURAFLO®

Manual Flush Valves

DURAFLO

the smart choice. the simple choice.

DuraFlo's diaphragm **resists deterioration** due to chloramines

DuraFlo Filter **guards against debris** and **protects** against excess noise

ADA compliant handle **reduces inventory, eliminates leaks** and **saves money** on single flush actuator

Fixed metered flush **saves water**

performance features

Vandal-resistant stop cap prevents damage to internal parts

Durable chrome-plated housing **resists dezincification**

High pressure vacuum breaker **prevents back-flow** into the valve

Mansfield's line of manual flush valves are designed to:

PROVIDE CONSISTENT FLUSH PERFORMANCE

DuraFlo flush technology provides a strong consistent flush - every time

PREVENT RUN ON

DuraFlo's diaphragm eliminates problems associated with silt, sediment or debris – a positive, complete shut off

PREVENT COMPONENT FAILURE

Parts and fittings designed to be long lasting, chemical resistant and trouble free

REDUCE WATER WASTE

DuraFlo provides consistent day in, day out performance, with precise water control, flush after flush

PROVIDE A LIFETIME OF PERFORMANCE

Like Mansfield's fixtures, the DuraFlo family of valves is designed to go on the job and stay on the job!
