

# 2023 Corona Industrial Sustainability Report

## WE INNOVATE TO CREATE VALUE

In 2023 we focused on innovating to create value for our stakeholders in economic, social and environmental terms.

### Our achievements:

#### SOCIAL EFFORTS

**We created over +9.100** direct jobs.

**More than 219.500 individuals** benefited from our social programs.

**Through over 5.900 hours of volunteering**, we positively impacted the lives of more than **22,400** individuals in the year.

In 2023, the Materials Bank Program **benefited 446 employees and their families**, helping them improve their living conditions.

**We invested 24 million dollars** in extralegal benefits.

**One hundred thirty-five women have completed the training phase** in basic construction skills, socio-emotional abilities, psychosocial support, and economic assistance.

**We allocated 85% of donated ceramic products to projects benefiting vulnerable populations**, explicitly targeting housing improvements, community infrastructure enhancement, healthcare facilities, water purification, and basic sanitation.

#### FINANCIAL RESULTS

Sales reached **905 million dollars**

**We export to 46 countries.**

**We launched Prestigio II, a facility in Sopó, Cundinamarca**, that is set to revolutionize Colombia's ceramic tile market with large-format porcelain tiles.

**We opened four Tienda Pinturera stores**, a new business model specializing in paints and related decoration products, to further strengthen Corona's leadership in the construction and remodeling sector.

In 2023, the savings from projects using the Corona Kit tools and with the support of our Green and Black Belts **exceeded 9,7 million dollars**

We encourage **innovation and growth platforms** to enhance our value proposition.

**1,500 contractors, plumbers, and painters** trained under the Maestros Corona Grival Program.

**Sales in the cement business increased by 14%, and Concrete sales grew by 151%** compared to the previous year.

#### ENVIRONMENTAL IMPACT

**We recycle 78% of the water used in our production** processes in Colombia, equivalent to the annual water consumption of 7,308 families of four.

**We saved 464 Tj in energy compared to 2022**, equivalent to the annual energy consumption of 70,663 families of four, thereby avoiding 37,720 tons of CO2 emissions.

**We reintegrated 147,313 tons of by-products** back into Corona's production process.

**We maintained our commitment to preserving nature by safeguarding our five Civil Society Nature Reserves**, collectively spanning 90.4 hectares. We have natural reserves in Guasca, Nemocón (both in Cundinamarca), Ibagué (Tolima), Arcabuco (Boyacá), and La Unión (Antioquia).

**In 2023, we reclaimed and restored 9.1 hectares of mining lands**, bringing the total to 141 hectares that have been recovered and restored over the years.

**We obtained the Colombian Environmental Seal Certification** for 130 models of faucets and fittings and 21 sanitary appliances.

Fifth place in the ANDI's national business innovation ranking.

Among the Top 5 of the world's leading ceramic producers, according to the Ceramic World Review ranking.

Gold Medal at the Espectador's BiBo Awards for the Civil Society Natural Reserves Program.

We Are **What We Do**

Sustainability
